What's New In Total Affiliate Page Creator Tool?

Total Affiliate Page Creator makes it possible for Affiliates to easily create and manage custom, highly attractive

Affiliate Web sites.

Simply enter a URL or a web address of an existing web page (from any site) and the program automatically generates a Web site with professional looking HTML templates and multiple variants to suit any design or color

preferences. Total Affiliate Page Creator can be used in a very simple, interactive "One Click" process to create multiple versions of a single Web site. Multiple HTML, .ASP, or .PHP versions can be created with no coding required. Once a page is created,

it can be edited with HTML/CSS or WYSIWYG editor, HTML email templates, or any text editor. Additional modifications can be made by using FTP, in a compatible text editor, or with the included HTML editor. A powerful feature of the program

allows for sophisticated URL rewriting to provide unique content for any of the supported browsers. A navigational menu bar is also included to provide easy access to options such as "Add Categories", "Add Pages", "Categories", "Pages", "Search",

"Website Settings",
"Translate", "Account
Settings", "Contact us",
and "Download". Key
Features: Total Affiliate
Page Creator allows you
to: Create multiple, high
quality Affiliate Web
pages, with advanced
editing capabilities for
each individual page.

Quickly add link-active pages to your site from an existing site. You are not required to create your own source code or web content for each link. Create a HTML version for your Web site, using pre-defined HTML templates. Create any number of custom

HTML pages and add them to your site with the click of a button.

Customize all aspects of the generated HTML page by using any compatible text editor (such as Notepad or WordPad). Using FTP, navigate to the right location and edit the

page directly with the included HTML editor.

Get a listing of the current active affiliates for your Web site with the click of a button.

Professional features All newly created pages include three versions.

HTML version for any supported browser (also

includes screen-savvy
Internet Explorer
versions) WYSIWYG
version for any
supported browser
Adobe Flash version for
any supported browser
The HTML/WYSIWYG
versions can be viewed
or edited by any
compatible browser

(with Internet Explorer or Netscape compatible HTML editor or Web browser.) The flash version is displayed in Internet Explorer, Netscape, and compatible browsers.

Notes The program includes a 60-day evaluation period.

During this period the program provides a free 10-day trial license. For the actual program license, it is \$99.95, which is approximately \$10-\$15 less than other similar programs.

Alternatives Magellan Webpage Creator is an alternative

System Requirements:

Minimum: OS: Windows
XP SP2 (32 bit) or
Windows Vista (32 bit)
